

CASE STUDY

INDUSTRY: LOGISTICS AND
SUPPLY CHAIN

WEBSITE: WWW.ANHAM.COM

TECHNOLOGY:

- AZURE
- WINDOWS REMOTE DESKTOP SERVICES
- MICROSOFT DYNAMIC GP
- SQL 2012 SERVER

SUMMARY AND CHALLENGES

ANHAM has engaged with LiveRoute to help migrate and setup MS Dynamic GP and RemoteApp infrastructure in Azure with a guarantee of minimum disruption to the business.

- ✓ From: On-Premise
- ✓ To: Azure Cloud
- ✓ Workload: MS Dynamic GP and RemoteApp
- ✓ Tight Schedule for Migration
- ✓ Converting VMs

THE SOLUTION

- ✓ Azure Tenant Enablement
- ✓ Azure Active Directory Office 365 Integrations
- ✓ Multi-Site VPN connection between Azure and On-Premise
- ✓ Offline Migration by converting Hyper-V VMs to VHD
- ✓ Publish Desktop App using Windows Remote Desktop Services
- ✓ Perform Remote Level 2 Support for Help Desk Teams in multiple locations: United Arab Emirates, United States, Jordan, Afghanistan, Kuwait, Iraq, Algeria and Lebanon

BENEFITS

Customer objective: to secure the 24/7 availability of all its web services while balancing its IT budget and enable resiliency without the need for redundancy.

DEPLOYMENT APPROACH
